10Kva Generator Petrol Construction

Code No. TM520-8000

FEATURES

All ITM generators are equipped with a reliable AVR (automatic voltage regulator) alternator utilising advanced electronic technology to provide a very pure energy supply with a THD (total harmonic distortion) of <5%. This clean and pure output means they are suitable to power even the most delicate electronic devices.

- Powerful 4 Stroke OHV engines
- Low Oil Sensor
- Digital Multimeter Display
- Large Capacity Fuel Tanks
- 2 Year Trade Warranty

The Construction Series models have a simple push button electric start (battery included) with a convenient remote control which is perfect for the large property or worksite where the generator may not be close to the tool being powered.

Complete with a heavy duty handle and wheel kit, IP66 rated power outlets & RCD (Residual Current Device), the construction series gens are perfect for the professional tradesman needing a tough yet reliable source of power.

Inverter Generator Petrol with Electric Start

Code No. TM523-4500

FEATURES

ITM inverter generators are equipped with an industrial quality engine with a sophisticated 3 way cooling system to lower the running temperature and extend engine life. A large volume muffler increases fuel efficiency and reduces noise and a permanent magnet inverter with ESC (Engine Smart Control) intelligently controls rpm to further reduce noise and fuel consumption giving you the ideal pure sine wave generator for the busy tradesman.

Whether you take them onto the jobsite to power corded tools & machinery, use it to power your appliances and devices on your weekend camping trip or at home in emergency power outages, ITM inverter generators also have the added feature of parallel connection capability, this means that when you join any two ITM inverter generators together in parallel connection, you get the full combined rated power output whenever you need it. Keep your options open and add power as and when your demand changes.

ITM inverter generators have the power you need to keep your essential services going and are a reliable source of power in a sturdy, convenient and compact design.

- Engine Smart Control (ESC)
- 3 in 1 Multi-function Control
- Robust Construction
- Low oil sensor
- Meets EPA & strict Californian pollution standards
- 2 Year Warranty
